neither pains nor expense in making them in every re spect the most convenient and pleasant School Room. in the United States. Tue plan adopted in teaching combines practice with theory; instea i of using books, the pupils are exercised in making original entries of every day business transactions: journatizing, posting, balancing accounts, opening and closing of a great variety of different sets of books, both for partnership and individual business, where the business has been prosperous and adverse; and thus qualifying the student for entering into the practical daties of the accountant in any kind of business.

The course of instruction will consist of DOUBLE EN-TRY BOOK KEEPING, embracing every department of trade and mercantile accounts, viz: Wholesale, retail, commission, exchange, banking, manufacturing, anipping, individual, partnership, steamboating, and compound company business; commercial calculations,

also, lectures on the science of accounts, custom of merchants, etc. In addition to the regular course of study, the under signed has made arrangements with Messrs. Henry Bnow, Esq., Hon. B. Storer, Prof. C. W. Wright and other eminent Lecturers, to deliver a course of lectures on the subjects of common law, history of commerce, political economy as connected with commerce, chemistry as connected with commerce, and other subjects of great importance in a commercial point of view, never before introduced in any Mercantile College in the U. States. Pupils are instructed individually, and not in classes, so that sea lents may enter at any time, and pro-
